

WEBINAR

FOR CONTINUING EDUCATION

Edge of Healing: Revolutionizing Wound Care with Negative Pressure Therapy Innovations

Date & Time

Tuesday, October 3
7pm-8pm ET

Learning Objectives

1. Review patient centered concerns in dealing with acute/ chronic wounds with traditional negative pressure wound therapy systems
2. Discuss the innovation in technology of RENASYS EDGE™ to improve patient health outcomes
3. Critique use of RENASYS EDGE™ in different wounds types in acute and community settings
4. Evaluate real world patient experience compared to other traditional NPWT systems
